TOP - A course created and delivered by Mauricio (Moshe) Kruchik

TOP stands for Treatment of Pain. It is the TOP course for the Treatment of Pain.

The course is oriented toward qualified Reflexologists who wish to extend and excel in their skills in treating patients who suffer from pain, or from pathologies where pain is involved.

This course introduces an entirely *NEW* and innovative concept in the Reflexology world.

TOP is based on the harmonic use of unique and highly effective techniques. A basic methodology aims to stimulate all the body systems and correcting the physiological patterns involved in the transmission of pain. After learning and practicing this basic methodology, (aimed at empowering the body to fight against pain, and to break the adaptation to pain), we will study and train techniques with more specific uses. These innovative techniques are based on three basic concepts to work with the body in a synergistic and dynamic way: Reflexology in Motion, Reflexology with Effort, and Reflexology with ICE.

These modalities merge in a concept aimed at providing effective and quick solutions to roughly 80% of your patients. The other 20% of your clients may need the techniques of TOP II (Reflexology for Fibromyalgia and Autoimmune Diseases). TOP I will help you get excellent therapeutic results quickly and with satisfying long-term benefits for your patients.

Very soon you will be able to see the differences between “before” and “after”. You will be amazed by the results in your work as a therapist as you have never seen before.

A thorough, general methodology first followed by a wide array of specific techniques, for every single problem, will be delivered and practiced. This HANDS-ON course is built to facilitate your practice immediately.

The Kruchik Method of Reflexology is based on five basic premises: motion, mobility, empowering pleasure, working with depth, and being PAINLESS. It compiles my experience of 25 years as a Reflexologist treating patients suffering extreme pain, always challenging, and sometimes almost impossible—creating, enhancing, and using pleasure to overcome pain.

This is a unique, innovative, practical, and outside-the-box course waiting for you. In the following pages you can read the program.

The same contents as mentioned above are also delivered in an ONLINE course consisting on 8 sessions (once a week) built to facilitate your full practice, 100% Hands-On! Besides this, you will have full WhatsApp support.

General information

Dates and schedule	TOP I September 13th to 15th, 2024 Friday 13 th from 10:00am to 6:00pm Saturday 14 th from 9:30am to 6:00pm Sunday 15 th from 9:30am to 5:00pm
